WELCOME TO OUR COMPANY

Founded in 2009, AL FARUSIA LOGISTICS began its journey in the vibrant city of Dubai, with a vision to revolutionize the shipping and logistics industry. From humble beginnings, we have grown into a trusted leader, providing world-class freight and logistics solutions. Our commitment to excellence has enabled us to expand our operations beyond Dubai, establishing key branches in India and across the Middle East.

With over a decade of experience, AL FARUSIA LOGISTICS has built a reputation for reliability, innovation, and exceptional customer service. We take pride in connecting global markets, offering seamless air and sea freight services, and ensuring that businesses of all sizes can thrive in a fast-paced world.

As we continue to grow, our goal remains the same: to deliver unmatched logistics solutions with a customer-first approach, making global trade easier, faster, and more sustainable.

- Tea Corner
- Al Farusia Job Consultancy

OUR SERVICES

IMPORTS

01

Cargo arriving at ALF is either cleared through Customs at the wharf or transported to our warehouses, where it is deconsolidated and stored in our bonded Container Freight Stations (CFS). Clients are notified when their consignment is ready. Door-to-door services can also be arranged. The Imports Department at the ports facilitates all documentation required for clearance with the governing authorities.

EXPORTS

For exports, clients provide us with their documentation, allowing us to complete the remaining paperwork required for their cargo to be accepted for export at our ports. FCLs can be received at our depots prior to shipping but are typically delivered directly to the wharf before the vessel's arrival. LCL cargo can be palletized, shrink-wrapped, and crated if required. Fumigation services are also available upon request.

For both exports and imports, our AFL worldwide network of recognized agents ensures that all shipments are delivered safely and on time. Clients are encouraged to obtain insurance; otherwise, they will be deemed to accept the risks associated with international forwarding and shipping.

TRANSPORT

Transport is an essential part of AFL's business, reaching every aspect of its operations. Export and import, air and sea freight, customs clearance, delivery, and warehousing all rely on transport. However, it is the special project work that sets Al farusia logistics apart. Special and heavy project work requires unique skills and specialized equipment. Fiji's imports and exports are a key part of our logistics business, with our transport fleet moving over 3,600 containers each year.

INSURANCE AND SERVICES

AFL provides value-added services by insuring customers' goods and valuables, handling all the necessary documentation for insurance. Goods are packed under the supervision of experts to ensure safe transportation.

PACKING AND MOVING SERVICES

AFL has developed a personalized approach to door-to-door moving of a variety of goods. Its expert team and staff ensure secure packing and moving of belongings both throughout India and globally. In addition to being secure and safe, AFL is also cost-efficient and guarantees satisfactory service.

OUR MAJOR CLIENTS

OUR MISSION

At Al Farusia, To provide seamless, reliable, and innovative shipping and logistics solutions, ensuring timely and efficient delivery across the globe. We are committed to enhancing customer satisfaction, fostering long-term partnerships, and driving sustainable growth through operational excellence.
